

SAMBHAV JAIN

Web developer

I firmly believe in Emerging Technology and it's capacity to change the way humans interact. I consider myself hungry for any type of knowledge I can gather whether it is related to programming, new technologies, gaming or literature. I'm ready for new challenges and face them with all my might.

EDUCATION

Graduation

DAYANANDA SAGAR ACADMEY OF TECHNOLOGY AND MANAGEMENT

08/2017 - 09/2021

7.96

Courses

- B.E. in Information Science and Engineering

High School

St. Clare's Sr. Sec. School

07/2004 - 03/2017

82.2

PERSONAL PROJECTS

GAXCHAT (02/2021 - 07/2021)

- This is our final year project which predicts the emotional quotient behind any text which is sent on GAXCHAT platform. It uses machine learning concept of vectors, along with that we have used the dialogflow platform provided by Google to train our machine. We implemented the GAXCHAT using React.

Student Performance Analysis (10/2019 - 12/2019)

- <https://github.com/CRAZFREE/SPA>

Crazstore (04/2022 - 05/2022)

- <https://github.com/CRAZFREE/Crazcoin>
- Crazstore is an e-commerce website, which is implemented using react framework and the backend is implemented using nodejs and expressjs, the database is implemented using MongoDB

getLyrics (07/2020 - 07/2020)

- <https://github.com/CRAZFREE/getlyrics>
- This provides lyrics of the requested song by the user through an API

Voting Smart Contract (05/2020 - 05/2020)

- https://github.com/CRAZFREE/voting_smartcontract
- This counts the number of votes cast for a particular candidate
